# **What are Emoji pronouns?**

Emoji pronouns are exactly what they sounds like, pronouns made from emojis!

## **Why do people use emoji pronouns?**

For many reasons! For personal reasons or for fun. I personally use them because they make me feel happy and carefree

## **Who can use emoji pronouns?**

Anyone can! Emoji pronouns are not specifically gendered meaning that even cisgender people can use them for various reasons  
(Ex: aesthetic, experimenting, ect)

## **When can emoji pronouns be used?**

Emoji pronouns are specifically for only online uses/purposes, as they can't be pronounced out loud

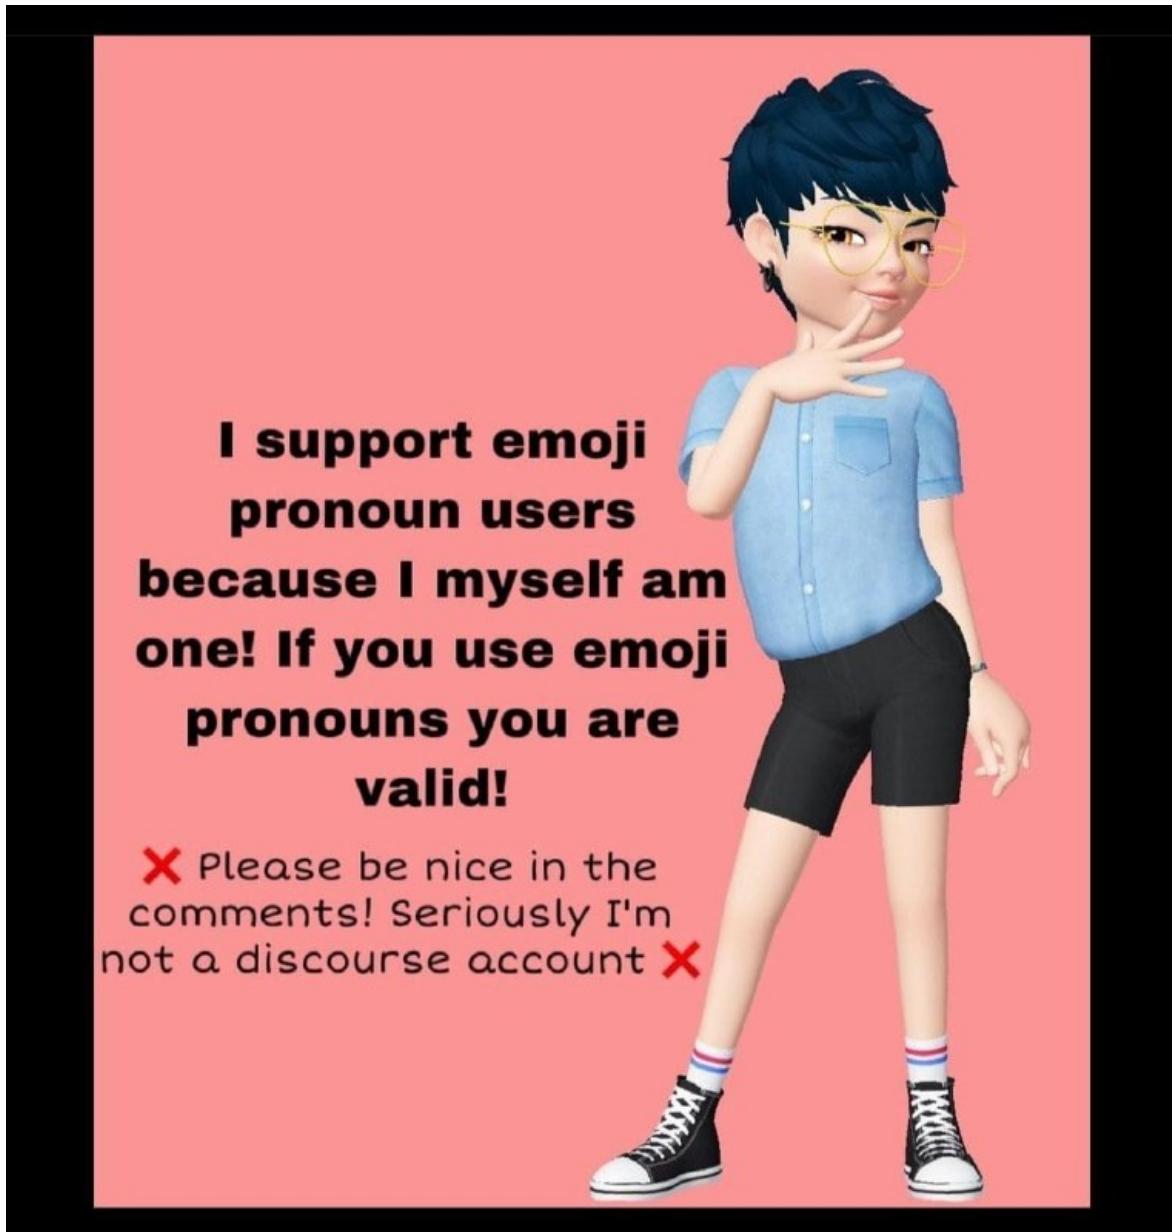

# **How do you use Emoji pronouns?**

**Example set:** 🧘/🧃/🧃**s/🧃****self**

**Today I was  
hanging out with  
my friend. 🧃 is  
really athletic and  
(loves ice cream!  
� brought 🧃's own  
lunch today, I bet  
� is proud of 🧃 self!**

**I support emoji  
pronoun users  
because I myself am  
one! If you use emoji  
pronouns you are  
valid!**

**✖ Please be nice in the  
comments! Seriously I'm  
not a discourse account ✖**

Feminism is the toughest battle for change because we have to fight with people we love the most, that is, our fathers, brothers, boyfriends, husbands.

MAMA, HOW DO WE  
KNOW WHEN WE'VE  
CROSSED FROM  
ONE OCEAN TO  
ANOTHER?

WE DON'T. BORDERS  
ARE SOCIALLY  
CONSTRUCTED AND  
YOU SHOULD BE  
WARY OF ANYONE  
WHO TAKES THEM  
TOO SERIOUSLY.

I lost 75 pounds so doctors would stop blaming everything on my weight.

/r/all

I am 5'6, I was 210 lbs before and am now 135. It took me a year to lose it all, but what finally pushed me to lose the weight was because every single thing I went to a doctor for, it got blamed on my weight. Severe cramps? Weight. Feeling sleepy during the day? Weight. Numbness in my fingers, headaches, memory problems, balance problems? Weight.

I recently went back to my doctors, who of course applauded the weight loss and wrongly assumed all of my problems were gone. When I said no they hadn't, they immediately ordered an MRI, sleep study and lapro, which they hadn't done before the weight loss. The MRI found chiari malformation, the sleep study/physical found out I have an oversized uvula as well as Narcolepsy, and the lapro found so much endo I lost both of my ovaries and a portion of my colon and lower intestines. If it had been taken seriously a year ago, I might not have lost them.

So yea, fuck doctors. (Obviously not all of them)

Your daily reminder that SSI is a eugenicist program.

Like there's a reason they really don't want me to get married.

In many places they don't want you to have any romantic relationship at all or they'll cut/take away your benefits.

Like, do I have to spell it out?

All this talk about eugenics and people don't even bother to do anything about the eugenics happening around them. And this is just one of the ways it's happening.

Disney is releasing two shows about “anarchist” villains at a time when interest in anarchist principles is swelling. Probably a coincidence.

Disney's interesting new "Cruella" movie seems to imply the puppy-skinning villain is an anarchist. Actual members of the often-vegan political movement say she's not welcome at the potluck:

So, I always knew Marvel was reactionary to its core, but apparently the new Falcon & Winter Soldier Disney+ series features the “anarchist villain” Flag-Smasher as its primary antagonist and I...hate...it...so much.

You accept violence to keep this going but you can't accept violence to stop it?

If you don't want your semen to make a fetus that can be aborted, or a child that you're responsible for, then don't put your penis inside anyone's vagina. You relinquish control when you choose to do that.

Today I was left speechless by an 8 year old, who politely told me that it was inappropriate to play hangman with them because of the lynchings of black men and the current state of the world and you know what? He was totally correct. I'm bringing him a prize tomorrow
